

CONTACTLESS HAND SANITIZER DISPENSER

mini

Shanvan STAGECRAFTS PVT. LTD. announces the launch of a new model in their range of "Contactless Automatic Hand Sanitizer Dispensers".

This automatic **Contactless Hand Sanitizer Dispenser** is a **mini** "mist" based sanitizer machine and is truly compact in size. It is based on Ultrasonic Sensor technology to ensure fully automatic touch-less operation - which can effectively disinfect both the hands at once. It's easy to install - with the two wall-mount holes provided at the back. In the front, two LEDs are there to indicate Power On (**Red**) and Mist Dispensing (**Green**) status. The 5 Liter tank makes it last longer & economical with approximately +1400 spray shots.

Key Features:

- Contactless & Automatic
- High Precision - Ultra-Sonic Sensor
- Dust Free & Non-Corrosive
- Low Power Consumption
- Easy Installation
- Industrial Grade & **mini** ABS Cabinet
- Easy Refill - from Top
- Optimal Dispensing of Sanitizer - by Mist
- Warranty - 6 months
- Power: 230v AC 50 Hz

Working/Operation:

- ❖ Place the hand(s) under the nozzle (at bottom of the housing), within the Ultra-Sonics sensor's range, it will sense & trigger the electronics inside. The unit will dispense the sanitizer liquid, in the MIST form, automatically.
- ❖ Once the hand(s) is removed from the sensor's range, the unit will turn off the mist, automatically.
- ❖ The dispensing operation status is indicated by the Green LED and the Red LED shows the Power ON status.
